Dear Sir or Madam

ESCORTED ACCESS PERMITS

A5 Jack's Hill Essential Maintenance Works

As we are recommencing works on the A5 tonight, between Tove roundabout (A43) and Weedon Bec, I'd like to take this opportunity to remind you of how the escorted access permit system should be used.

Permits are only to be used by residents needing to safely gain access to and egress from their properties and are not to be used as a means of travelling through the closure to avoid the diversion route(s). Please note that they are only valid during works within the numbered phase identified on each permit.

Please produce your permit to our Traffic Marshal(s) who will arrange for you to be escorted through our works area when circumstances allow.

For your own safety and that of our workforce, please do not attempt to drive through our work site without an official escort.

Although we will make every effort to maintain access through the site during our overnight and weekend works, there will be certain operations such as drainage excavation and carriageway resurfacing which will restrict the movement of vehicles through the site.

Information about any such works will be given in advance to enable you to make alternative arrangements during that period.

If you require any additional information or permits, please provide your address, email address and vehicle registration details to our **Public Liaison Officer** Mike Healy, either by emailing infoA5jackshill@forkers.com or telephoning 07964 114623.

Yours faithfully,

East Midlands Operations Directorate
Highways England
